

OCTOBER 2024 NEWSLETTER

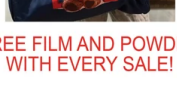

Textile Industrial Sign & Graphics

It seems like every year at the Printing United Expo, we are introduced to so much great new equipment. This year was no exception! The inkjet industry continues to innovate with great new printing technology and creative print applications. Over the next few months, ITNH will be sharing new information on so many new printers and we are kicking it off this month with a great new Mimaki UV flatbed printer and an amazing print application video! And, we have great fall printer specials that you don't want to miss!

- **Hot Buys!**
- **New Product Alert - JFX200-1213**
- **Featured Video**
- **Events Coming Up - 2 Open houses! New Hampshire & Wisconsin!**

New Product Alert!

The JFX200-2513EX has been such a home-run flatbed printer that Mimaki is doubling down on it with a new smaller size! The "just released" **JFX200-1213** printer maximizes efficiency with an approximate 4' x 4' print area. While it offers the same capabilities and ink sets as its larger brother, the new 1213 may be a better fit for small shops with limited space as well as users printing on small items.

Featured Video

Modern machines like the **Mimaki JFX200** flatbed printer and the **Summa F Series** flatbed cutters unleash an amazing amount of creativity potential. Check out this video to see how we made one of the best print samples featured at the Printing United Expo this year!
